

When preparing to make a purchase remember it is your duty to spend the university's funds responsibly by following purchasing laws, university policies and by obtaining competitive pricing and value.

What would you do if you were buying the item with your own money?

Purchases from external vendors using university funds can be made with three different purchasing processes: procurement card, purchase order or remittance voucher.

When preparing to make a purchase, first determine which process is appropriate:

- 1. Can I use a procurement card? Is the purchase allowable and will vendor accept it?
- 2. If cannot use the procurement card, then a purchase order must be obtained BEFORE making the purchase.
- 3. Remittance vouchers should be used only when other payment methods are not more appropriate. Please contact Accounts Payable or visit the Accounts Payable website for more information about remittance vouchers.

Quote: a document from the vendor that specifies the pricing for specific goods or services. Requisition: a request from faculty or staff for the purchase of goods or services. Purchase Order (PO): the official approved order from the Department of Procurement &

Purchase Order (PO): the official approved order from the Department of Procurement & Contract Services for the purchase of goods or services.

Invoice: a document from the vendor specifying the prices for the goods and services that have been received.

Payment: the payment by the Accounts Payable for goods and services after they have been received.

Procurement Card – can be used wherever VISA is accepted.

Requisition/Purchase Order – must be approved by the Department of Procurement and Contract Services *before* purchasing.

Remittance Voucher - only used for a few select purchases.

Procureme

Procurement cards CANNOT be used for the following:

waste management and technology related services, are not exempt from the quote and bid requirements. If there are questions about requirements for a particular service, please contact

Å

The university is exempt from paying sales tax in the State of Mississippi and has been waived from paying sales tax in several other states. Sales Tax Exemption certificates are located on the Office of the Controller's website under Tax Compliance. If you have any questions about tax exemption, please contact the Tax Compliance Officer at 601.266.4102.

Standing orders are zero dollar purchase orders that can be used to make multiple similar purchases throughout the fiscal year. For example, Fuelman services or the rental and refills of cylinders for scientific gases. Most repetitive, small dollar purchases can now be made on the procurement card, so standing orders should be reserved for vendors who do not accept Visa payments and/or purchases such as fuel that require a purchase order.

Standing orders can only be issued for one fiscal year at a time. All standing orders will be canceled on June 30 each year and will have to be renewed for the next fiscal year. Procurement & Contract Services will notify the campus community each spring when it is time to begin requisition entry for renewing standing orders for the next fiscal year.

iTech has standardized computer purchases for the campus. Requisitions are no longer required to make computer purchases. Standard computers/laptops are required to be purchased directly from iTech. The purchase will be processed similar to an Interdepartmental Invoice. If you require a computer different from the standard configuration, you can submit a quote and an explanation for the variation from the standard configuration to computer.orders@usm.edu.

Please visit the iTech website for more information on departmental computer purchases.

A budget signature authority is *not* equivalent to a contract signature authority.

Typically it is the Department of Procurement & Contra
